

What Level of Protection Do You Want?

New Sump Pump in Your Existing Pit

- High capacity, 1/3 hp pump with dual float switch
- Sump pump stand
- Water alarm
- 1 1/2" check valve
- 1 1/2" discharge line

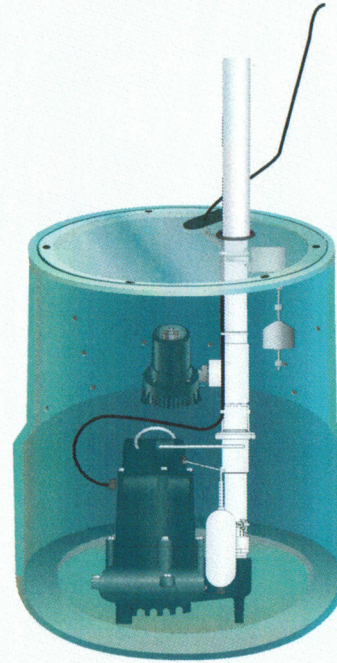

Single Sump System

Additional Improvements

- Perforated sump liner
- Patented "bell" design allows more water into basin before pump activates
- Airtight, clear, sealed lid

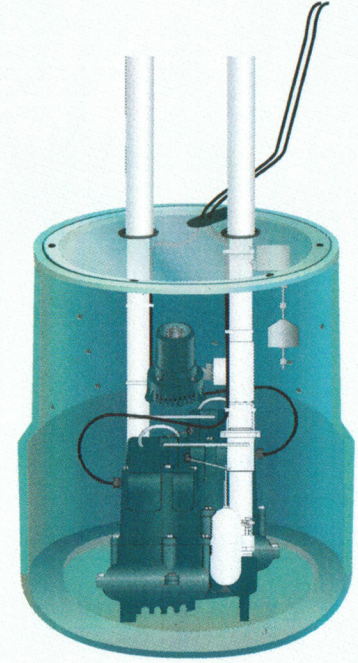

Single Sump System with Battery Back-Up

Additional Improvements

- Battery back-up sump pump system
- Runs off battery power for protection during power failure

Triple Sump System

Additional Improvements

- A secondary high capacity 1/3 hp pump
- Secondary check valve, discharge line and pump stand
- Secondary pump runs if the primary pump fails or can't keep up with water intake

Sump Pump = The Heart of Your Waterproofing System!
