## Is My Basement Sick?

Use a flashlight and look closely at your basement walls and floors. Do you see:

- Interior cracks
- Exterior cracks
- Seepage at the cove (where the floor meets the wall)
- Seepage through floor cracks
- Water marks on the floor or walls
- Unlevel floors
- Cracked mortar joints
- Cracks that are wider at the top than the bottom
- Mold/mildew or musty odors
- Damp spots on the walls
- White chalky substance (efflorescence) on the walls

**Call us today for your FREE estimate!**

Our experienced and trained professionals will use the latest technology to evaluate your foundation and waterproofing problems.

- Laser level
- Moisture meter
- Relative humidity meter

# Testimonials - Let our clients do the talking!

*Our team has used Accurate Basement Repair a couple times now and we have been very pleased with not only the quality of work done but the high level of customer service that your company provides us.*

**Erik G., RE/MAX Realty 100, Milwaukee, WI**

*...the inspector specifically asked what company had done the work on the basement walls. He said it was one of the finest jobs he had ever seen!*

**Jim K., Milwaukee, WI**

*Not once did they try to sell us something we didn't need. Accurate gave us the lowest estimate of the five other companies we called.*

**Herbert and Christine T., Greenfield, WI**

*...honest, forthright and knowledgeable. We highly recommend Accurate Basement...*

**Jack and Diana D., Nekoosa, WI**

*Not only did they do an outstanding job in the basement, they took the time to protect things on the outside of the house as well.*

*They were patient with me and my endless list of questions and they helped change a scary situation into a positive experience.*

**Janice B., Milwaukee, WI**

**Conveniently located to serve  
all of South Eastern Wisconsin**
