Is My Basement Sick?

Look closely at all your basement walls and floors. Do you see:

- Interior cracks
- Exterior cracks
- Seepage at the cove (where the floor meets the wall)
- Seepage through floor cracks
- Wet walls
- Unlevel floors
- Mold/mildew or musty odors
- White chalky substance (efflorescence) on the walls

Call us today for your FREE estimate!

Our experienced and trained professionals will use the latest technology to evaluate your foundation and waterproofing problems.

- Laser level
- Moisture meter
- Relative humidity meter

Fred and Gloria Murphy, Cudahy, with estimator Paul Vaccaro

We are very pleased with our basement repair. Our only regret is that we won't be there to enjoy it. We would recommend Accurate Basement Repair to anyone with a basement problem.

Fred and Gloria Murphy, Cudahy

The estimator provided me with a tremendous amount of information. I was very impressed with his amount of knowledge. The office staff worked with me to coordinate the inspection and work schedule. The crew was polite, courteous and efficient. I couldn't be more pleased with the quality and professionalism of the company.

Terry Doty-Webb, Fox Point

We are quite impressed with Accurate and your attention to detail. It was hard to believe how much you got done in one day. Good communication and follow up. Cleaned everything up nicely and conscientiously. Impressed that the owner spearheaded the job. THANKS!

Kathy and Mark Richfield, New Berlin

A big thank you for everything you've done. No more worries about a wet basement. I only wish I would have called you sooner.

Gail Rich, Milwaukee

We were aware you had to squeeze our repairs in between other scheduled jobs. We appreciate the extra effort of your workers and the extra time working until 7pm to complete our basement in time for our closing.

Florence Senica, Franklin

They were courteous, prompt, professional and clean from start to finish!

Dale and Maggie Fuchs, Greendale

Conveniently located to serve all of South Eastern Wisconsin
